SPECIAL ASSEMBLIES

GRADE V

RASHTRIYA POSHAN MAAH

Our special assembly dedicated to National Nutrition Month raised awareness about the vital role of healthy eating and well-balanced diets. Through inspiring presentations, songs, and skits, students highlighted how proper nutrition fuels growth, energy, and learning. The event left everyone motivated to make wholesome food choices a daily habit.

GRADE VII

GANESH CHATURTHI

A festive assembly highlighting the cultural significance, traditions, and joy of Lord Ganesha's arrival.

GRADE II
KINDNESS

KINDNESS

Young learners have spread their heartfelt message on empathy, helping hands, and simple everyday acts of kindness.

LEARNING BY DOING
EXPERIENTIAL LEARNING

Hands-on academic activities where students turned theoretical classroom concepts into practical, real-world understanding.

Our young learners discovered new ideas through simple, hands-on activities and direct exploration. By building, touching, and experimenting, they learned how things work in the real world. This active approach made learning fun, engaging, and easy to remember.

CCA COMPETITIONS

EARLY YEARS - BRILLIANT BRUSHES ART COMPETITION

Early years students proudly brought healthy foods and spoke about their favorite nutritious snacks.

GRADES I & II – VEGGIE & FRUIT PARADISE
FANCY DRESS COMPETITION

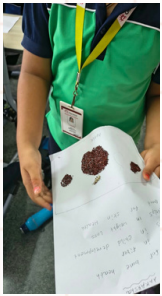

Children dressed up as vibrant fruits and vegetables to celebrate health and proper nutrition.

GRADES III & IV - CREATIVE HANDS

ART & CRAFT COMPETITION - MILLET ART

Creative minds crafted, stunning artistic patterns using various grains and millets to promote healthy habits.

GRADES V, VI & VII - YOUNG CHEF'S
CULINARY COMPETITION
FIRELESS COOKING

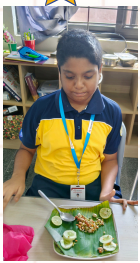

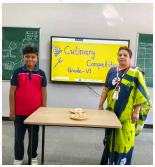

Older students displayed culinary flair by preparing delicious, safe, and nutritious fireless dishes.

FAST FEET - SPORTS COMPETITION

100 METERS RUNNING RACE

The 100 Metres Running Race brought excitement and energy to the track as our young athletes raced ahead with speed, determination and sportsmanship. Every stride reflected their enthusiasm and competitive spirit.

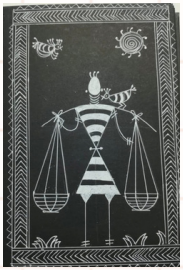

ARTFUL EXPRESSIONS

A colorful showcase displaying our students' imaginative paintings, intricate craftwork, and artistic expressions.

STUDENTS' SPOTLIGHT

NOURISH TO FLOURISH - THE POWER OF NUTRITION

SHRADDHA
GRADE VI

GROWING IN MIND & BODY

Role of Nutrients in Physical and Mental Development

Good nutrition plays a very important role in our overall growth and development. Nutrients are the building blocks of our body and mind. They help us stay healthy, strong, and active while improving our concentration and memory. Proteins help in building and repairing body tissues, carbohydrates provide energy for daily activities, and fats supply long-lasting energy and aid in the absorption of vitamins. Vitamins and minerals strengthen our immune system, keep our bones healthy, and support brain development. A balanced diet that includes fruits, vegetables, whole grains, nuts, milk, and plenty of water provides all the essential nutrients our body needs. These nutrients not only keep us physically fit but also improve our mood, reduce stress, and enhance our thinking skills. On the other hand, excessive consumption of junk food can lead to weakness, illness, and poor concentration. Therefore, we should choose nutritious food every day and maintain healthy eating habits. Good nutrition is the key to a healthy body, a sharp mind, and a brighter future.

Healthy food builds a healthy mind and body.

पोषण की उड़ान

श्री अन्न (मिलेट्स) और उनका महत्व

श्री अन्न, जिन्हें मिलेट्स भी कहा जाता है, हमारे पारंपरिक और पौष्टिक अनाज हैं। इनमें बाजरा, ज्वार, रागी, कोदो, कंगनी और सांवा जैसे अनाज शामिल हैं। ये अनाज हमारे स्वास्थ्य के लिए अत्यंत लाभकारी होते हैं और सदियों से भारतीय भोजन का महत्वपूर्ण हिस्सा रहे हैं।

मिलेट्स में प्रोटीन, फाइबर, आयरन, कैल्शियम, विटामिन और खनिज प्रचुर मात्रा में पाए जाते हैं। ये शरीर को ऊर्जा प्रदान करते हैं, पाचन तंत्र को स्वस्थ रखते हैं तथा रोग प्रतिरोधक क्षमता बढ़ाते हैं। रागी कैल्शियम का अच्छा स्रोत है, जबकि बाजरा और ज्वार आयरन एवं फाइबर से भरपूर होते हैं। इसलिए बच्चों, युवाओं और बुज़ुर्गों सभी के लिए श्री अन्न का सेवन लाभदायक है।

श्री अन्न केवल स्वास्थ्य के लिए ही नहीं, बल्कि पर्यावरण के लिए भी महत्वपूर्ण हैं। इनकी खेती में कम पानी की आवश्यकता होती है और ये कठिन मौसम में भी आसानी से उग जाते हैं। इससे किसानों को लाभ होता है और प्राकृतिक संसाधनों का संरक्षण भी होता है।

आज के समय में जब लोग जंक फूड की ओर अधिक आकर्षित हो रहे हैं, तब श्री अन्न का महत्व और भी बढ़ जाता है। हमें अपने दैनिक आहार में मिलेट्स को शामिल करना चाहिए ताकि हम स्वस्थ, सशक्त और ऊर्जावान बन सकें।

आइए, श्री अन्न को अपनाएँ और स्वस्थ भारत के निर्माण में अपना योगदान दें।

ANNIE PERSIS
GRADE VII

As part of National Nutrition Month, our students put their thoughts into words through engaging stories and insightful articles. Their creative writing reflected their understanding of healthy eating, balanced nutrition and the importance of making mindful food choices.

SHIVEN
GRADE VI

STORY WITH A TASTE OF NUTRITION

The Boy Who Ate Nothing and the City of Plate

Aarav was a boy who disliked healthy food and preferred eating only chips and candy. One night, he dreamed of a magical place called Plate City, where different nutrients came to life and explained their importance. King Carb showed him how carbohydrates provide energy, Pari Protein explained that proteins help build muscles and support growth, while Vicky Vitamin and Mini Mineral taught him how vitamins and minerals protect the body from diseases and keep it healthy. Feni Fat told Aarav that healthy fats keep the body warm and support brain function, and Fia Fibre explained how fibre helps digestion and keeps the stomach healthy. After spending a day with these new friends, Aarav realized that every nutrient has an important role to play. When he woke up, he happily ate a balanced meal and understood that no single food can keep us healthy. The story teaches us that a healthy diet should include all nutrients because each one contributes to our growth, energy, and overall well-being.

MALUTRITION FREE INDIA

Rashtriya Poshan Maah

TOWARDS A MALNUTRITION-FREE INDIA

Healthy food • Healthy children • Healthy nation

Rashtriya Poshan Maah is an opportunity to strengthen awareness and action around nutrition, healthy growth and the wellbeing of children, families and communities. Malnutrition can result from inadequate, excessive or imbalanced intake of energy and nutrients, and may affect growth, development, learning and health. A balanced and varied diet—combined with safe water, good hygiene, healthcare and healthy everyday habits—can help children grow and learn well.

Families, schools, students, Anganwadi Centres and communities all have an important role to play by promoting nutritious meals, choosing a variety of fresh foods, including protein-rich foods, avoiding unnecessary food waste and sharing reliable nutrition information. Small, consistent actions can build a stronger foundation for a healthier future and contribute to the vision of a malnutrition-free India.

BUILD A BALANCED PLATE

FOOD GROUP	EXAMPLES	WHY IT HELPS
Cereals & millets	Rice, wheat, ragi, jowar	Energy and nutrients
Pulses & protein foods	Dal, beans, peas, nuts, seeds, eggs	Growth and tissue repair
Vegetables	Leafy greens, carrots, tomatoes	Vitamins, minerals and fibre
Fruits	Banana, orange, apple, guava	Vitamins, minerals and fibre
Milk & dairy	Milk, curd, paneer	Protein and calcium

EAT A RAINBOW: Include fruits and vegetables of different colours. These provide a variety of nutrients, include protein-rich foods regularly; drink safe water; maintain hygiene; and avoid food waste.

SMART HABITS: Prefer fresh, locally available foods; include protein-rich foods regularly; drink safe water; maintain hygiene; and avoid food waste.

OUR POSHAN PLEDGE

- I will learn about balanced and nutritious food.
- Value variety in my meals.
- Practise good hygiene and use safe water.
- Avoid unnecessary food waste.
- Share positive nutrition habits with others.

GRADE VII

As part of National Nutrition Month, our students put their thoughts into words through engaging stories and insightful articles. Their creative writing reflected their understanding of healthy eating, balanced nutrition and the importance of making mindful food choices.

LIVES THAT INSPIRE

BOMPALLY BHAVANI

National Award-Winning Teacher, Telangana

Bompally Bhavani, a government school teacher from Kamareddy district, Telangana, has transformed her school through innovative teaching methods and unwavering commitment to her students. When she joined the school, student enrollment was low, but her creative approach to learning inspired more families to send their children to school. Her efforts significantly increased student strength and improved learning outcomes. Her dedication earned her recognition at both state and national levels, making her a role model for educators everywhere.

Inspiring Students Beyond the Classroom

Jelli Prakash Rao, originally from Andhra Pradesh and serving in the Andaman & Nicobar Islands, has dedicated his career to making learning meaningful and accessible. His efforts to encourage student participation, improve educational awareness, and bring creativity into teaching have earned him several district and state-level awards. His commitment to educational excellence demonstrates how teachers can inspire positive change in every community they serve.

Jelli Prakash Rao

Kauluri Ramesh

Champion of Technology-Driven Learning

Kauluri Ramesh has gained national recognition for effectively integrating technology and Artificial Intelligence into education. His innovative practices have supported foundational literacy and numeracy goals in thousands of schools. By embracing modern teaching tools and encouraging digital learning, he has shown how technology can make education more engaging and accessible for students. His achievements highlight the importance of innovation in today's classrooms.

"I have learned that one person's dedication can transform many lives. These teachers motivate me to be responsible, curious, and committed to achieving my goals."

BY HANSHIT GRADE VII

EARLY YEARS – LITTLE FOOTPRINTS

KRISHNASHTAMI

Toddlers celebrated the birth of Lord Krishna with music, traditional attire, and joyous festivities.

GANESH CHATURTHI ACTIVITY

Hands-on eco-friendly clay modeling and festive art projects tailored for our youngest learners.

ORANGE COLOUR DAY

A bright and vibrant celebration introducing colors through themed outfits, art, and sorting games.

GRANDPARENTS' DAY

A heartwarming event honoring grandparents with performances, interactive games, and sweet memories.

SEED GERMINATION ACTIVITY

NURSERY

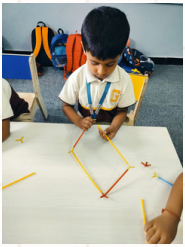

Our Early Years learners brought different varieties of seeds and explored the process of seed germination. Through this hands-on activity, they learnt how to sow seeds, care for them and observe their growth, fostering curiosity and a deeper connection with nature.

EY 1

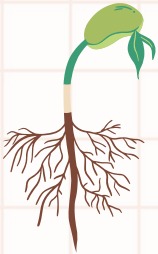

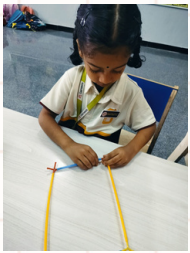

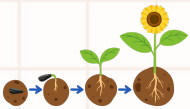

EY 2

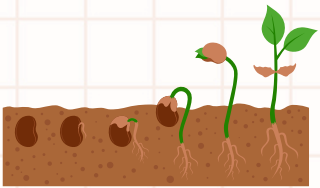

FREE PLAY

Free play gave our young learners the freedom to explore and imagine at their own pace. Through interactive games, children built social skills like communication, sharing, and teamwork. It was a joyful, hands-on way to boost confidence and fine motor development.

TEACHERS' INSIGHTS

Teachers' Sharing unique teaching insights and pedagogical experiences from their time in the classroom. Reflecting on student growth, creative classroom moments, and inspiring educational journeys.

My Teaching Journey

Teaching at Genesis World School has been a joyful and fulfilling experience. Working with Early Years students brings immense happiness as every day is filled with curiosity, creativity and new discoveries.

Genesis follows a child-centred and activity-based approach to learning, where storytelling, hands-on activities, play and exploration make education meaningful and enjoyable.

The supportive environment at the school encourages both students and teachers to learn, innovate and grow together.

Being a part of the Early Years Department has strengthened the belief that learning should be engaging, nurturing and inspiring. The smiles, enthusiasm and progress of the children make this teaching journey a memorable and enriching one.

Small Steps... Big Dreams!

Ms. Swarnalatha

Early Years Department

मेरी शिक्षण यात्रा

शिक्षण मेरे लिए केवल एक पेशा नहीं, बल्कि विद्यार्थियों के जीवन को सकारात्मक दिशा देने का एक अवसर है। Genesis World School से जुड़ने के बाद यह अनुभव और भी सार्थक बन गया है।

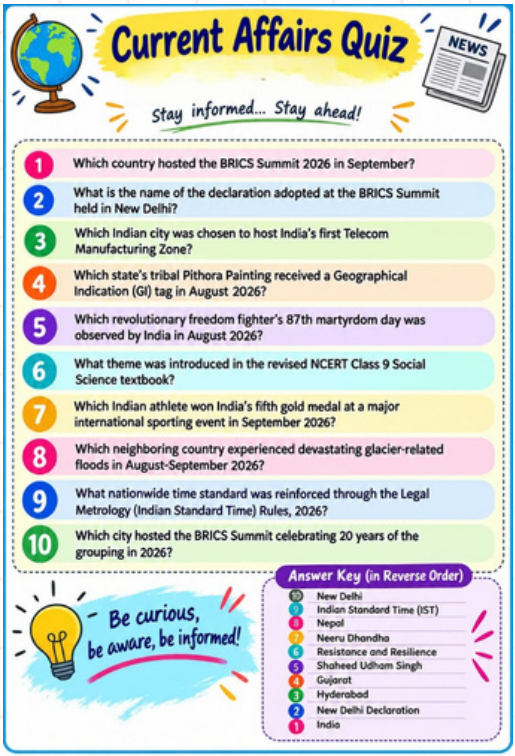

हर कक्षा एक नई कहानी कहती है, हर विद्यार्थी एक नई संभावना लेकर आता है। विद्यालय केवल शिक्षा का केंद्र नहीं, बल्कि सीखने, सृजन करने और आत्मविश्वास के साथ आगे बढ़ने का एक प्रेरणादायक मंच है। इसी यात्रा का हिस्सा बनना मेरे लिए एक सुखद और समृद्ध अनुभव रहा है।

विद्यालय में मुझे अपने शिक्षण कौशल को और बेहतर बनाने तथा नई शिक्षण पद्धतियाँ सीखने के अच्छे अवसर मिल रहे हैं।

जया परमार

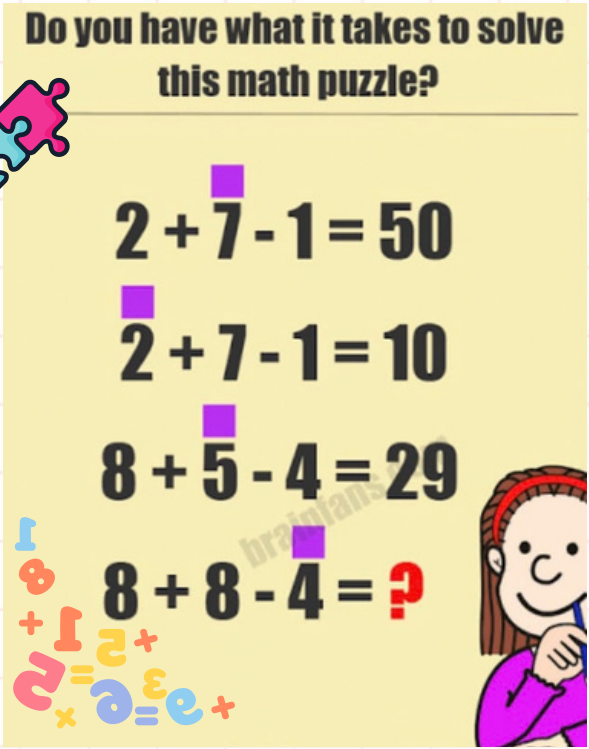

AROUND THE GLOBE

CURRENT AFFAIRS

A curated round-up of major global news and events to keep students informed and globally conscious.

MIND BENDER

DINESH - VII

Brain-teasing crosswords, sudokus, and riddles designed to test logic, vocabulary, and problem-solving skills.

CURTAIN CALL

SEPTEMBER SYMPHONY

Important Dates in September

Let's remember, respect and learn from the great personalities and events that make our nation proud!

5 Sep — Teachers' Day
Celebrated to honour Dr. Sarvepalli Radhakrishnan, a great teacher, scholar and former President of India. It reminds us to respect and value our teachers.

8 Sep — International Literacy Day
Observed to promote literacy and lifelong learning for all. It reminds us that education is a basic right and a key to a better future.

8 Sep — World Physiotherapy Day
Celebrated to create awareness about the importance of physiotherapy in improving health, mobility and quality of life.

14 Sep — Hindi Diwas
Observed to honour the contribution of Hindi to our national identity and to encourage its use and promotion across the country.

17 Sep — Engineers' Day
Celebrated in memory of Sir M. Visvesvaraya, a legendary engineer and statesman. It recognises the valuable contribution of engineers to society and nation building.

21 Sep — International Day of Peace
Observed to promote peace, non-violence and harmony among all. It reminds us to work together for a safer and kinder world.

23 Sep — National Space Day
Celebrated to commemorate the success of India's Chandrayaan-3 mission on 23rd September 2023. It inspires us to explore, innovate and aim higher.

27 Sep — World Tourism Day
Observed to highlight the importance of tourism in promoting cultural exchange, understanding and economic growth. It encourages us to explore and respect different cultures.

30 Sep — International Day of Translation
Observed to appreciate the importance of translation in bringing people closer, sharing knowledge and promoting global understanding.

Let us remember these special days and work towards a better, brighter and more united world!
